METEOR STORM David Capps

63,000 years ago, an ancient civilization existed far advanced over our own, but it was destroyed by a natural cataclysm. Now that same cataclysm is about to strike our modern world...

When Carl stumbles upon an unknown robot's head, he manages with some effort to get it working. From the robot, Carl learns that it was created by an ancient civilization 63,000 years ago in northern India. The robot reports though, that the culture was destroyed by a meteor storm that killed all, but a thousand people planet wide.

When Carl learns that Earth is entering the same place in the galaxy where the meteor field exists, he warns people on TV, but finds himself ridiculed and ignored. To protect the world, Carl works to find out more about the ancient civilization and how to prevent a repeat of history.

To do this, Carl travels to a secret cave where the ancient technology is stored and here Carl meets a fully functioning robot from the ancient civilization. Now Carl must do everything in his power to preserve as many lives and as much of the current civilization as possible to avoid full scale destruction...
