Avelyn has been bitten and her body is slowly changing. She is becoming stronger, faster, and her senses are sharpening. On the next full moon, she will turn into a werewolf. The good part? She's safe, and there's nothing Max wants more than to spend his life with her. The bad part? She won't be able to offer him children – the heirs Clan Blackmane needs to ensure the Alpha lineage.

However, the moment Avelyn is consulted by a doctor, even this falls on second place. The news the doctor gives them makes them realize that letting Avelyn change on the next full moon is out of the question. There is one solution to her condition, one solution that could make things right: a cure for the werewolf venom. Max will have to race against time to find that cure, or he'll lose everything he's ever fought for.
