Eletromagnetismo (Portuguese Edition)

Prof Luiz Cezar Trintinalia

Eletromagnetismo (Portuguese Edition) Prof Luiz Cezar Trintinalia

Este livro de Eletromagnetismo foi concebido para ser utilizado no curso de Engenharia Elétrica da Escola Politécnica da Universidade de São Paulo. O conteúdo deste livro apresenta as equações de Maxwell como postulados, explicando o significado físico dos seus termos e a apresentação de propriedades e teoremas a elas relacionados. Em seguida é feito um estudo do campo elétrico em regime estacionário, com a apresentação de sua aplicação em problemas de cálculo de capacitâncias e resistências de problemas canônicos simples e de problemas mais complexos com o uso de métodos computacionais. Também são apresentadas propriedades de materiais dielétricos reais e relações de força e energia em campos eletrostáticos. Mais adiante é feita a análise de problemas de campos magnéticos em regime estacionário, envolvendo também materiais ferromagnéticos, ímãs permanentes e cálculo de forças, visando sua aplicação em transformadores e máquinas elétricas. Em sua parte final, são tratados problemas de regime quase-estacionário, de grande importância também para o estudo máquinas elétricas. Esse conteúdo corresponde à primeira parte de um curso de dois semestres em Eletromagnetismo, sendo que o estudo completo de campos com variação temporal e a geração e propagação de ondas eletromagnéticas é deixado para a segunda parte do curso, não coberto pelo conteúdo desta obra.

From reader reviews:

Audrey Thompson:

Can you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Aim to pick one book that you just dont know the inside because don't evaluate book by its deal with may doesn't work at this point is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside seem likes. Maybe you answer could be Eletromagnetismo (Portuguese Edition) why because the excellent cover that make you consider about the content will not disappoint you. The inside or content is fantastic as the outside or maybe cover. Your reading sixth sense will directly show you to pick up this book.

Grady Long:

This Eletromagnetismo (Portuguese Edition) is great publication for you because the content which can be full of information for you who always deal with world and get to make decision every minute. This particular book reveal it information accurately using great arrange word or we can point out no rambling sentences included. So if you are read that hurriedly you can have whole facts in it. Doesn't mean it only provides straight forward sentences but challenging core information with beautiful delivering sentences. Having Eletromagnetismo (Portuguese Edition) in your hand like keeping the world in your arm, details in it is not ridiculous one particular. We can say that no reserve that offer you world throughout ten or fifteen second right but this guide already do that. So , this can be good reading book. Heya Mr. and Mrs. busy do you still doubt this?

Debra Heffner:

Is it you actually who having spare time and then spend it whole day by watching television programs or just laying on the bed? Do you need something totally new? This Eletromagnetismo (Portuguese Edition) can be the response, oh how comes? A book you know. You are and so out of date, spending your spare time by reading in this brand new era is common not a geek activity. So what these textbooks have than the others?

Jacob Hill:

As we know that book is essential thing to add our expertise for everything. By a e-book we can know everything we really wish for. A book is a group of written, printed, illustrated or perhaps blank sheet. Every year has been exactly added. This guide Eletromagnetismo (Portuguese Edition) was filled with regards to science. Spend your time to add your knowledge about your scientific research competence. Some people has different feel when they reading a book. If you know how big advantage of a book, you can sense enjoy to read a reserve. In the modern era like right now, many ways to get book you wanted.
