Brave is Pixar's thirteenth feature film, but it marks two big firsts for the award-winning animation studio. It's Pixar's first feature film driven by a female lead and its first set in an ancient historical period. Against a backdrop of castles, forests, and highlands, *Brave* follows the fiery Merida as she clashes with the duty of her royal life and embarks on a journey through the rugged landscape of the dark ages of Scotland. At once epic and intimate, the latest Pixar masterpiece weaves a story of magic, danger, and adventure and the fierce bonds of family.

Featuring behind-the-scenes interviews with the film's many artists and filmmakers, *The Art of Brave* showcases the gorgeous concept art that went into the making of this movie, including color scripts, storyboards, character studies, environment art, sculpts, and more. A Foreword by Brenda Chapman and Mark Andrews, the film's directors, and a preface by Chief Creative Officer John Lasseter shed light on the creation of this landmark film.
