Courageous cousins are forced to do battle with magical foes in this series, collected here in a single volume

In *Sorcery & Cecelia*, cousins Kate and Cecelia have been inseparable since childhood. But in 1817, as they approach adulthood, their families force them to spend a summer apart. As Cecelia fights boredom in her small country town, Kate visits London to mingle with the brightest lights of English society. At the initiation of a powerful magician into the Royal College of Wizards, Kate finds herself alone with a mysterious witch who offers her a sip from a chocolate pot. When Kate refuses the drink, the chocolate burns through her dress and the witch disappears. It seems that strange forces are convening to destroy a beloved wizard, and only Kate and Cecelia can stop the plot. But for two girls who have to contend with the pressures of choosing dresses and beaux for their debuts, deadly magic is only one of their concerns.

In *The Grand Tour*, seasickness during the Channel crossing is the price Cecelia must pay for her budding magical skill. As her nausea ebbs, she is comforted by her new husband, James, and the knowledge that at long last they are on their honeymoon. In their company is Cecelia's cousin Kate, newly minted as the Marchioness of Schofield, and her husband, Thomas. The shared journey guarantees the two couples a happy start to married life, if they can survive the perils of the Continent. In Calais, a mysterious woman visits Cecelia with a package intended for Thomas's mother. Inside is an alabaster flask of noble manufacture, one of the royal artifacts that have been vanishing all over Europe as part of a magical plot against the French crown. This is no simple honeymoon: On their tour of Europe, Kate and Cecelia must save the monarchy from an emperor-in-exile named Napoleon.

In *The Mislaid Magician*, it's been a decade since Kate and Cecelia foiled Napoleon's plot to reclaim the French crown. The cousins now have estates, children, and a place at the height of wizarding society. It is 1828, and though magic remains at the heart of the British Empire, a new power has begun to make itself felt across England: the steam engine. As iron tracks crisscross the countryside, the shaking of the locomotives begins to disrupt the workings of English magic, threatening the very foundations of the Empire. A foreign wizard on a diplomatic mission to England vanishes, and the Prime Minister sends Cecelia's husband to investigate. In order to accompany her husband to the north of England, Cecelia leaves her children in Kate's care. As Cecelia and James fight for the future of magic, Kate is left with a no less daunting problem: how to care for a gaggle of disobedient, spell-casting tots.
