Stephen Crain, Rosalind Thornton

Investigations in Universal Grammar: A Guide to Experiments on the Acquisition of Syntax and Semantics (Language, Speech, and Communication) Stephen Crain, Rosalind Thornton

This introductory guide to language acquisition research is presented within the framework of Universal Grammar, a theory of the human faculty for language. The authors focus on two experimental techniques for assessing children's linguistic competence: the Elicited Production task, a production task, and the Truth Value Production task, a comprehension task. Their methodologies are designed to overcome the numerous obstacles to empirical investigation of children's language competence.
