SPIKED: The story of a woman drugged with GhB and how she was turned into a criminal Sharron Gold

The author takes you with her on her race for survival through a bizarre world of manipulative conspirators. Employing the notorious GhB a drug that can virtually turn anyone into a willing slave, combined with the potentially lethal power of hypnosis, gang stalkers on two continents, the latest technology for monitoring and recording all voyeuristic activity, these outwardly "respectable" criminals send her on a journey into a 21st century hell which defies imagination, gravely endangering her physical and mental health and leaving her destitute.

Even while she is still outwardly compliant, she begins to understand that something is very wrong in the way she feels and what is going on around her. How does anyone survive such an ordeal? What are the effects on the victims of mind altering and so called "truth" drugs? How does a woman caught in the net of gang stalkers escape? How does she rebuild her life and start the process of seeking justice against the perpetrators?

Her only weapon is her continuity trained memory. Over the three months she was drugged, she mentally kept track of everything that happened like a continuity girl on her own nightmare. As she battles with the withdrawal from the forced addiction, the hundreds of pages she has mentally written down float around in front of her. In a race against time, she has to pick up the pages, number them and turn them into a book as fast as possible. This is her shocking story.

Reviews:

Robert Priebe - I met the author a few weeks ago at her shop in Hallstatt. My wife was trying on a dress and I picked up one of two copies of Spiked lying on a table. I saw the author's picture and asked if the story was true and if anyone was prosecuted. I am a police chief in California and had investigated sexual assaults involving "date rape" drugs. When the author, Sharron, found out I was in law enforcement she begged me to read and review her book and to give it an honest review. I promised her I would, and I'm glad I did. The story is compelling and kept me involved and anxious to read more, There's my honest assessment but I am equally honest in saying I recommend everyone make effort to read it because the story is more than worth it. I could see this story becoming an excellent movie. For those contemplating this book, do it!

Carla Allgeier

This book illustrated the randomness of good and bad luck, and that, once targeted, someone who wants to do you harm has a frightening array of possibilities at his or her disposal, and you will be none the wiser until disaster strikes.

This book is a must-read for women who travel alone, to warn them to follow their instincts and to advise them that if a drink bought by a stranger tastes salty, not to drink it. Leave immediately. It's also a good idea to only accept a drink that comes out of an unopened can or uncapped bottle.

Personally, I believe this story to be true. The gut-wrenching terror of Sharron's experience written with such insight and detail lead me to suspect that it's based on her own story.

5.0 out of 5 stars another good read, May 16, 2013

Unfortunately there are horrible people out there who are willing to get their way at any cost. These are the 'strangers' you warn your children about. Then as the 'stranger' becomes someone who is a friend of a friend...or is always at the coffeehouse at the same time...and they begin to talk they start working their way into your life.

It is also part of our culture to be kind. These people prey upon kindness. Ms. Gold is lucky to be alive
