Some time ago A. W. Tozer edited The Christian Book of Mystical Verse. It was that book which inspired this one, though there are only a few poems in common. There are several differences in the approach. 1) A good number of poems by the great 17th century metaphysical poets are included, which Tozer entirely omits 2) Fewer hymns have been included, though there are still quite a few. 3) A higher literary quality has been aimed at, which Tozer admitted was little of his concern. 4) An audience of all varieties of Christians is intended, not just Evangelicals. 5) Most importantly, A stricter definition of mysticism, the technical meaning of which is experiencing or seeking union with the ground of being; Christians, of course, among many others, call the ground of being God; and, alone, recognize its triune nature. This book will hopefully inspire you in your own spiritual quest.
