*Michael Freeman*

**The Photographer's Eye: Graphic Guide: Composition and Design for Better Digital Photos** Michael Freeman

Michael Freeman's unrivalled compositional advice, first presented in the bestselling *The Photographer's Eye*, is explained in a new and deliberately visual manner in *The Photographer's Eye Graphic Guide*. Photography is a visual language in itself, and therefore lends perfectly to visual explanation. Drawing on his long professional experience as an editorial photographer, Michael Freeman shows exactly how images work by using a beguilingly simple technique. His unique style of illustration (which he does himself) deconstructs photographs in a way that is clear, elegant and thoughtful. The information in this book can be absorbed in minutes, but last you a lifetime.
