Health Policy in a Globalising World

Health Policy in a Globalising World

Increasing recognition of the impact that globalization may be having on public health has led to widespread concern about the risks arising from emerging and re-emerging diseases, environmental degradation and demographic change. A distinguished, international team of contributors covers a comprehensive range of topics and geographic regions herein, arguing that health policy making is being affected by globalization and that these effects are, in turn, contributing to the global health issues faced today.
