Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience)

Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience)

Because neurons and glia in culture are remarkably similar to those in situ, culture systems make it possible to identify significant cell interactions and to elucidate their mechanisms. This book is in many ways a do-it-yourself manual for culturing nerve cells, complete with recipes and protocols. But it also provides an understanding of the principles behind the protocols. In effect the contributors invite you into their labs and provide much of the information you would obtain from such a visit. The authors of the introductory chapters present the nuts-and-bolts principles of growing nerve cells. The authors of the following chapters discuss the culturing of specific cell types. They explain how their experimental goals have shaped their particular cell culture approach and the advantages and disadvantages of the cell culture systems they have developed. They provide detailed protocols and describe their cultures in practical terms, from when the cells are first plated through the various phases of their development.

Contributors: Janet Alder, Hannelore Asmussen, Gerard Bain, Gary Banker, Robert W. Baughman, Richard P. Bunge, Ann Marie Craig, Matthew E. Cunningham, Dominique Debanne, Stephen E. Farinelli, Michael F.A. Finley, Gerald D. Fishbach, Beat H. Gähwiler, W.-Q. Gao, Daniel J. Goldberg, Kimberly Goslin, David I. Gottlieb, Lloyd A. Greene, Mary Beth Hatten, Dennis Higgins, James E. Huettner, Kenneth A. Jones, Naomi Kleitman, Raul Krauss, Ronald M. Lindsay, Nagesh K. Mahanthappa, Carol A. Mason, Margot Mayer-Pröschel, R. Anne McKinney, Mary E. Morrison, Mark Noble, David S. Park, Paul H. Patterson, Muming Poo, Richard T. Robertson, Samuel Schacher, Michael M. Segal, Carolyn L. Smith, Nacira Tabti, Scott M. Thompson, Roseann Ventimiglia, Ginger S. Withers, Patrick M. Wood, Min Yao.

From reader reviews:

Greg Wilson:

The book Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience) give you a sense of feeling enjoy for your spare time. You can utilize to make your capable considerably more increase. Book can to get your best friend when you getting stress or having big problem with your subject. If you can make reading a book Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience) for being your habit, you can get a lot more advantages, like add your capable, increase your knowledge about several or all subjects. You can know everything if you like open and read a e-book Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience). Kinds of book are a lot of. It means that, science publication or encyclopedia or others. So , how do you think about this guide?

Lillian Albrecht:

People live in this new day of lifestyle always make an effort to and must have the time or they will get lot of stress from both lifestyle and work. So , once we ask do people have time, we will say absolutely without a doubt. People is human not really a robot. Then we inquire again, what kind of activity are there when the spare time coming to an individual of course your answer will certainly unlimited right. Then do you ever try this one, reading guides. It can be your alternative throughout spending your spare time, often the book you have read will be Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience).

Holly Hughes:

The book untitled Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience) contain a lot of information on that. The writer explains the woman idea with easy technique. The language is very clear to see all the people, so do definitely not worry, you can easy to read the idea. The book was written by famous author. The author will bring you in the new era of literary works. You can read this book because you can please read on your smart phone, or model, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can available their official web-site as well as order it. Have a nice examine.

Hilary Rangel:

You may get this Culturing Nerve Cells, Second Edition (Cellular and Molecular Neuroscience) by browse the bookstore or Mall. Only viewing or reviewing it might to be your solve issue if you get difficulties to your knowledge. Kinds of this e-book are various. Not only simply by written or printed and also can you enjoy this book through e-book. In the modern era such as now, you just looking of your mobile phone and searching what their problem. Right now, choose your ways to get more information about your e-book. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose suitable ways for you.
